

April 4, 1975

wrong with this bill. It is just providing for the issuance of someother form of evidence of deposits in that savings and loan. The form that I think they would probably take is a plastic type credit card type of identification form so you don't have to carry your passbook to the savings and loan everytime you want to make a deposit or withdrawal. All you do is carry that plastic credit card. You can make a deposit by just showing them the card. They'll stick in in the machine, put in the figures, and wham, you've got \$10 credited to your account or \$10 withdrawn from your account. That way you don't have to carry your passbook with you all the time. The amount of money that you have on deposit will determine the number of shares that you have in the account, however. For approximately ten years we got the inquiries such as Senator Luedtke, for example, referred to, how much for example, is there in this account because we're trying to close an estate. We process those normally everyday of the week. There's nothing wrong, there's no problem to it whatsoever. I whole heartily endorse the bill and suggest that we advance it and forget it.

PRESIDENT: Senator Stull.

SENATOR STULL: I have a question of Senator Goodrich. Mr. Speaker, members of the Legislature, Senator Goodrich, isn't this just one step closer for the savings and loan to start a checking account service for their customers?

SENATOR GOODRICH: Absolutely not.

SENATOR STULL: You know, I would like to make a statement. I think that what is happening here is the savings and loans are getting closer and closer to getting into the banking business and I think if they want to get into that, they should go get them a charter from the Banking Department and be organized the same as the banks that we have in the state of Nebraska now. It seems to me that each year we grant the savings and loans more and more leeway and pretty soon, they're going to be in the banking business, but still not controlled by the Banking Department as the banks are now. I oppose this bill.

PRESIDENT: Senator Dickinson, are ready to close debate by way of reply?

SENATOR DICKINSON: I have no closing, Mr. President. I guess that I would comment again that somebody hasn't done a very good job of selecting noncontroversial bills. I move the bill be advanced to E & R Initial.

PRESIDENT: The question is, shall the bill be advanced? Record your vote. Please vote. Record. Senator Dickinson.

SENATOR DICKINSON: I hate to do this but I'd like to see people vote so I ask for a Call of the House.

PRESIDENT: The question is, shall the House go under Call? Record your vote. Record.

CLERK: 20 ayes, 4 nays.
